Remaining watched Ernst Röhm stupidly from the laundry and hers for a while Brown shirts, then tried the path shown by feudalen into the Second World War to stop. "Militia -like defense army" and "the country Those who pretend " - these were their ideas of a German Revolution. President of Hindenburg was the "Lord of Hintenden" And the new government a gang of mono -carrying "blue assholes", with which The SA fighters meant the blue blood in their veins.

A "armored attack army" was a good decade in the head of the "Führers" came from Austria. So after Hitler's securing the chimney and Armor barons on the Ruhr under their leader Krupp von Bohlen and Halbach On the eve of June 30, 1934 for the "Night of Long Messers". Richard's caring father, Freiherr Ernst von Weizsäcker, who is more likely until 1933 modest services in the passing site of the German consulate in Basel, as Gesandenschaftrat in Copenhagen and envoy in Oslo, power Suddenly lightning career. With Hitler's start of power, the

The seriousness of life then began in the spring of 1938 after this frolic in the World history in the lovely Werbellinsee north of Berlin. The Reich Labor Service Had called for the six -month trench and shovels. Here in the Schorfheide Had the elector and emperor hunted, then Göring, then Honecker, and soon become it be the state guests of the Federal President. Following these three detours the then eighteen -year -old hurried to the flags of the Großdeutsche Wehrmacht, as befits to Potsdam to the Christian shaped and traditional "infantry regiment 9" - the almost only noble Officers named "Count Nine" because of the ordinary foot people.

By Ehrenblatt to Peace

Also non -Prussia such as Hitler's Bavarian Hofadvokat Hans Frank, later than Governor General and "Poland Schlächt" to get a sad fame, were able to "serve" this elitist war heap as a reserve officer. To swear It usually organized to the guide in the Potsdam garrison church for the Christian -drilled recruits the "Choral of Leuthen". - "Hitler," wrote Frank, too the time already chief lawyer of the NSDAP, "was highly respected in these circles, already Because of the restoration of the Wehrmacht. "At that time regimental adjutant Wolf Count Baudissin created the mission statement from the "citizen in uniform" in the 1950s.

Dr. Friedrich Pflüger, long -time press spokesman for the Federal President Advanced - during his term of office by Weizsäcker's propagandist married the Greek Willy Brandts-done in his 480-page forest "Richard von Weizsäcker - A portrait of nearby «whose soldier's time with one sentence:" Almost Richard von Weizsäcker had to serve as a soldier for seven years of his life, mostly on the Eastern Front. "

Where was this "Eastern Front" for the third son Richard of the Ssgeneral Ernst von Weizsäcker, who had been the duties at Kaiser's naval defects before the First World War, for "Eating, drinking and drinking and Music "to worry, whose Ahn Gottlieb Weizsäcker in the 18th century, according to Martin Wine in history of a German family «(on page 1 of this 575-page Weizsäcker-Buches) to catch the favor of the feudal tried? In the distant East Prussia, the young baron was "Eastern Front" and namely at the leadership headquarters "Wolfsschanze", where "the reports of agents as well as the logs of the interrogation of prisoners of war together "(Martin Wine on page 484). Here the outgoing and incoming allies were Military attachés received, hosted and kept happy, Romanians, Hungary, Italians, Vichy-French, Spaniards, but also curious neutral Bulgarians, Portuguese, Swiss. If one follows the one of the same time in Buenos Aires Goebbels speaker Wilfried von Oven, so stood in a few grams of Margarine and one egg a week for the people in the isolated leadership headquarters French cognacs and chocolates, fruit and southern fruits of exquisite quality in large Shells and a lot of things around. The move of the leader headquarters to Winizza Made in West Ukraine

also Richard von Weizsäcker and his biographer wine notes expressly this. "off the home".

The rope team kept: Richard von Weizsäcker's superior was general Gerhard Matzky; At the Bonn State State, this was inspector of the Federal border protection. The head of the surgical department at the headquarters was Adolf Heusinger, the later general inspector of the Bundeswehr. At the top of the Verliche espionage "foreign armies east" stood Reinhard Gehlen; The building first For the US occupying powers and then the new "defense" for Bonn on. It is difficult not to Richard von Weizsäcker for a Hätschelkind of the National Socialism to keep Hitlerscher form: in the middle of the war, at the end of 1942, Let's see him in the Swiss capital Bern, where he is the neutral Antibolshevik "war experiences" performs.

Back at the Großeutsche Wehrmacht, he played in the occupied Denmark "Count Nine" the new regimental adjutant, the colonel calls him his "boy Adler "Why knows the vulture. Christmas is committed to Christianly:" God with us "in the late Gothic cathedral of Aarhus. The canon has over the visit of his childhood in Copenhagen (father Ernst was there German Gessandschaftsrat) still delighted by Danish bike -breaking officers from Weizsäcker, who introduced him to the sheep in Feldgrau!

Mentioned court reporter Martin Wein invents on page 486 of the Book mentioned at the end of July 1943 south of Leningrad "two Weekly battle in which almost 90% of his soldiers found death. Richard von Weizsäcker proved himself. "

The area south of Leningrad formed in the summer of 1943 after preliminary Defense fights at Lake Ladoga and before the outbreak of the Red Army from the City of millions in the coming winter down to the Black Sea Returning Eastern Front a rest and stop. No historian knows from Such battle and every adjutant of the loss figures had to report on, knows the relationship: three wounded came to a fallen. Surprising, that Richard von Weizsäcker also after this "probation" in the summer of 1943 at "ninety percent Dead "still without the" EK I "belonging to the uniform of an infantry officer had to run around. The examiner was at the time in front of Leningrad with the Knight Cross was awarded in the summer of 1943 in the 399 infantry regiment Battalion adjutant and describes this summer south of Leningrad for ten years Later in his "History of the 170th I. D." So: "It was followed by months of the Position war that were quiet, in well -developed bunkers, whose ceilings Caliber. "

There were hard fights in 1945 in the trapped East Prussia. The author came there Serious in Russian captivity and soon heard the murmur here the "Graf nine" landser also caught weeks later about the departure of their noble officers. Who deserted with the "von" in the names; searched for Some of them by hospitalship the width over the Baltic Sea. The young baron and Captain Richard von Weizsäcker sat down by ship and train and on various detours to Lake Constance, kept hidden in the lap and Castle of the family, the Countess of Eulenburg, which is in these weeks In particular, they lost well to the Red Army in East Prussia.

Our "man according to the heart of God" caught the "flying Stand courts ", which he is on the next tree according to the time -fitting customs would have been tied, not, and the former prosecutor and judge of the Federal Republic, Dr. Karl Salm, evaluates the escape history in his beech "Flag escape - for the Richard von Weizsäcker case" as a "key experience". Learned is learned: when moving around after the end of the war, travelers got started "Zone boundaries" easily in some captivity and his further escape the Countess Adelheid of Eulenburg describes as:

"The border guard led Richard von Weizsäcker to a room that fully occupied Was with a fellow sufferer, among them a heavily pregnant woman. The woman and he decided not to stay; they agreed that they are towards the Wanted to spend as "fiance". They practiced names and data, then the woman lifted to whine, her child would be born immediately, so that the frightened guards quickly released them for onward journey and the "fiancee" as Luggage rack afterwards. When Richard von Weizsäcker traced back and again without Passing license came to the zone border, he asked an obviously wounded whether he could carry it across the border, took him on his back, and none of Both were checked. "

The flag escape from the competitive East Prussian in April 1945 was good The time of the "Persil certificates" had been prepared. At the Are caught by field gods, so -called "chain bundles", a "Proposal for the mention in the Honorary Journal of the German Army" Life -saving be. The officer mate Rudolf von Knebel Doeberitz left a paper from Officer mate of Langn-Steinkeller for signature of the heavy

wounded in the field hospital, the regimental commander lying in the field hospital. It means there, the captain Richard von Weizsäcker "in the fire of all calibers last men of his regiment through the toughest measures 1.5 km The hospitals were torn ". The hospital ships were behind him.

The World War III overhead Max painter asked the Federal President these "hardest measures", which actually only shoot on the Battlefield could mean. With "R. Weizsäcker" the Lord replied without that usual "from" on July 22, 1987: "I have never driven anyone into the fire, Even if someone wrote this in a recording unknown to me. Man is as he is, and not the way others make him appear want."

The former Major Rudolf von Knebel states to the "unknown recording" Doeberitz in writing: "In the early 1980s I received one from the military archive Copy of our proposal from April 1, 1945 and was able to Send the Federal President. "

Dr. Karl Salm, author of the "flag curse", before the foundation of the Federal Republic CDU joined and worked professionally as a prosecutor and judge at one Higher Regional Court, states succinctly: "One of both lies."

People's dumbing sheet "BILD" does not lie; According to the type of house, it does the quote of the dubious time document at the point "through hardest measures" three Points. So Otto learns normal consumers through "Bild" bar on page 1 on 16. February 1988: "Weizsäcker - Cut of death on the fresh lagoon."

In the spring of 1991 Salm announced that it was also the "essential content of the 2nd edition (well known to the Federal President) nothing at all, "and" they can Quote from the current 2nd edition ", which happened here.

Just as Blüm tries to get away from his pre-Golf War, it does "only a gradual difference whether someone served in the Hitler concentration camp or on the front ", So the Baron Richard von Weizsäcker scattered over his initially praised inglorious departure from East Prussia since the Bundeswehr was drawn up various representations. Dr. Salm represents and refuted the "Versions 1-6", further the "latest versions 7a, 7b, 7c" and to "Psychogram of the Lord von Weizsäcker" he contributes: "Faithlessness as a mental Basic pull, faithlessness, combined with untrue and mental trauma From the escape of the flag ".

The newspaper for old and young comrades "Soldier in the People", seated Bonn, tried to lighten the Weizsäckers' darkness: anyone had that Federal President for the unveiling of the Bremen "monument for the Unconciled war «proposed. Adel committed, and so he gave how Chief editor Zimmermann on 12.1, 1990 reported, but red stop light: "" Was the Federal President a deserter? " I wanted to st do this in the last issue a publication was made by the State Secretary of Hase from Federal Presidential Office asked for whatever reason to waive."

Command was command. "Semper Talis" - "Always the same" - is the "Graf ine" Nine" standard saying.

With God for "agent orange"'

"Got the curve" had at the end of the Second World War with its 50 million Dead also father Ernst and brother Carl-Friedrich, Hitler's atomic bomb researcher. When the deputy foreign minister Ernst Freiherr von Weizsäcker He heard ambassador to the "Deputy of God on Earth" in Rome When he deregistered the "Führer" a monologue about "The Pope's Power". Pius XII. At that time, a good 400 million believers commanded. The one with the Mission entrusted: "I go in enemy."

The Federal Foreign Office had a more important position at the time of war, where Ambassador in general - if not the whole ministry - superfluous were not to be awarded. Approval in the "fighting of Bolshevism" And the order was to reach the Hitler "Jewish policy". He was stated: the "deputy" kept silence like Rolf Hochhuth convincingly depicts in the spectacle of the same name. When he wrote on his pieces, were From Kohl and Christian party the easy -care son Richard von Weizsäcker is just built into a "politician", and so Hochhuth remains accordingly with the father reserved:

"Weizsäcker's more multifaceted, indispensable character is artistically speaking, One of the most fascinating in contemporary history - it would be irresponsible to To treat shape as a secondary figure in a drama, which is why they prefer was completely left out. "

No year after the Vatican ambassador departure from Berlin, the ones in Italy occupied western allies advanced from the south. you in Rome. Unmistaked they let the baron of Weizsäcker and wife in the, "Villa Bonaparte" live from where the couple

Then moved to the "Palazzo del Tribunale" near St. Peter's Basilica. His Hitler's top diplomat in the Vatinkan nation was unintellia Fort: In August 1944 he had talks with US ambassador Hugh Wilson and With William Donovan, head of the US secret service. It was about a Going together western Allies with that on the eastern border of the Greater German Reich defending Wehrmacht. Together you should follow Move east and the "number one world enemy", just the Bolshevism, that Mainly smashed in Moscow. Music in the ears of Pius XII. and US general Patton. - President Roosevelt was not available, the Generalissimus Stalin Was the "Good Old Joe".

Richard's older brother Carl Friedrich, who after failure with a German Atomic bomb described conformism as its greatest mistake, reached in April 1945 at the foot of the Hohenzollernburg in the Swabian Alb, the "Alsos mission", A special US unit for tracking down the German researchers. She Also got Heisenberg and everyone else and Carl Friedrich von Weizsäcker delivered what he had and knew: the hidden one and a half tons of uranium, that Heavy water for the reactor and the research reports of the "uranium association", which were buried behind his Hechingen house. Three months later they fell both atomic bombs on the Japanese in Nagasaki and Hiroshima. To Christmas Eve 1945, all this interned German Scientists put freedom on the gift table. Find in early March 1946 We Carl Friedrich in the aerodynamic experimental institution in Göttingen. Werner Heisenberg, Otto Hahn, Max Planck are already there. When working on 1991 played by Wolfgang Müben

Film from the race for the A-bomb, "End of Innocence", the Screenwriter the Carl Friedrich von Weizsäcker initially in writing. "Have none Time, "replies. And when n asked:" That was a long time ago and I am interested no longer. "

The brother Richard, whom the occupiers as a deserter from the Greater German Wehrmacht kept free from every captivity in French coal pits had, took one for scientists in Göttingens Nobler Bunsenstraße 16 freed up apartment. The 26 -year - old begins his law studies and the Housing owner Carl Friedrich will soon move in in view of his merits "Gods Own Country", to the USA.

Father Ernst travels back and forth between his Exile in the Vatican state and Nuremberg, where the war criminal processes at the end of 1945 had started: - as a witness, free of charge if you are assured. With this exemption It was out in July 1947 after some newspaper articles previously over Weizsäcker's participation in Eichmann's Jewish deportations and about his paraphe had appeared on the associated documents. The former head of the Legal department of the Federal Foreign Office, Friedrich Gaus, began to to burden supervisor State Secretary, and the US main clerk Robert M. W. Kempner - as a Jewish -blooded senior government council after Hitlers Takeover of power emigrated - remembers that the baron "after initial Exploses said: 'I'm shaken.' " - In the individual cell he requested the Bible And later the works of the church teacher Augustine. Sunday services in He never missed the prison church.

The son Richard's right -wing student in Göttingen became a defense approved - another special feature in the so -called "Wilhelmstrasse process" (in This Berliner Straße was the seat of the Federal Foreign Office). The line of Father and son was simple, but did not throw up the court: "How could a man, The Jews from France had to be shipped to Auschwitz, know what behind the barbed wire happened? The deporter did not have to believe a good deed too do when he was persecuted with the yellow star on the coat in front of a rabid French police? "

Industrial Ernst Boehringer laid seriously for the prisoner of Weizsäcker stuck, wrote after his first jail year in November 1948 For the friend:

"They keep you firmly custody and spying - leafing whether where one Line for your spoilage - can be interpreted ... "

The winning judges interpreted the documents and imposed in the spring of 1949 Against Hitler's former top diplomat

seven years in prison for "crimes against humanity - because of Participation ion in in Jewish deportations. "

The following year, son Richard von Weizsäcker puts his legal examination; to The is same time is the editor of the white -washed "memories" of his father. After only a very short job at the Higher Regional Court in Celle, the "Economy", Mannesmann puts him in Gelsenkirchen as a legal advisor. The Leading lawyer of the group, Günter Geisseler, had a assistance Richard von Weizsäcker met in Nuremberg, where Alfried Krupp at the same time was defended by Bohlen and Halbach, Hitler's stirrup holder at the "Night of the long knife", in which Ernst Röhm and t comrades were illuminated.

This job with Mannesmann gave the young baron enough time that Legal t clerkship at the Gelsenkirchen District Court, at the Essen Regional Court and r finally to continue at the Hamm Higher Regional Court. So he put in 1953 in Düsseldorf dismissed the assessor exam, married Marianne von twelve years younger Kretschmann, daughter of the director of the Benzol Association. Ernst von Kretschmann, Her uncle, was a general SS general in the Soviet concentration camp Hohenschönhausen has been tortured to death.

The young promoted Richard impressed with his Bright red DKW convertible. At the age of 35, the now husband will be in Göttingen awarded the doctor title. This changes the company, becomes a banker, appears as a "personally liable partnership" at Waldthausen and Co. KG in Essen And at Waldthausen and Co. in Düsseldorf. Fritz von Waldthausen is that Grandfather of the trusted.

So with the help of friends and relatives to take up to the "business leader", get our “man according to the heart of God” the old in the early 1960s Friend of the Ernst Boehringer family in Ingelheim at the top of the chemical group (founded in Stuttgart in 1859) so that he was the life's work of the Aging. The Bingen commercial court is under "HR A 327" registered, as the second in the group draws: "C. H. Boehringer son Weizsäcker ".

Back then Agent Orange, today Chemtrails - http://chemtrail.de

A spacious villa in Ober-Ingelheims Stiegelgasse was with icons hung up, - keep "God with us", as already on the coupling lock of the young Potsdam soldiers.

His time with the union demand for the 35-hour week far Ahead, agreed in the employment contract: "Two-third-time working hours".

The remaining third belonged to "church work"; Passionate about the bad thing: "The Public-relation work "to withdraw poison and weapon shops. As well Always - the soon acquired post is "President of the Evangelical Church Day" the dioxin-containing shops, which so far in Hamburg 130 employees alone Cancer brought, certainly not offset - a personal union special Quality, that is probably not possible.

Richard von Weizsäcker's biographer quote the house lawyer Lachenal, according to which to the Freiherr "as the decisive center of the company". The Editor of the West German Radio Werner Filmmer and Heribert Schwan Writing in her book "Richard von Weizsäcker - Profiles of a man" (Econ, Düsseldorf 1984): "No important company decision was made without Weizsäcker's consent. "

And now it is becoming criminal: because of "genocide", prosecutors are investigating - against the president of the Federal Republic of Germany elected until 1994. It will Quoted from the criminal complaint by the former Mannheim district court director Rudolf Deichner from December 1989:

"... when the American chemical weapons manufacturer Dow Chemical 1964 in Delivery difficulties came, helped Dr. Richard von Weizsäcker and delivered the Americans A modern process for the production of ingredients for the Female "agent orange" .... the genocide happened with the intention, a group From people in Laos and Vietnam as

to destroy them in whole or in part. ... that was the global upswing of Boehringer sealed ... a Boehringer man noted: "As long as the Vietnam War continues, no sales difficulties can be expected. "... actually went under Weizsäcker steeply the further development of the Boehringer house. The Official main supplier for "Agent Orange", Dow Chemical in Midland/Michigan, praised the great cooperation spirit «, which the Boehringer group showed.

Seemann Uwe Krüger, who had now been crowded, pregnant a Vietnamese; "Agent Orange" was sprayed in her area and she gave birth to him a crippled Being that soon died. The Federal President Richard appeared on September 7, 1990 by Weizsäcker to celebrate the 250th birthday of the poet Matthias Claudius in the Aula of the Rudolf Steiner School Hamburg-Farmsen, which is about a thousand people Offers space. Visitors had been carefully selected by the Hamburg-Wandsbek district office using a police computer; About a hundred places remained free and Uncepted demands had been written: "Unfortunately, all cards already assigned ". At the main entrance, the affected Krüger distributed his leaflet: entirely Simply and without comment the decision of the Stuttgart public prosecutor's office from 13. 8. 1990 on "5 JS 96936/89 - Noticular against Federal President Dr. Richard von Weizsäcker for "participation in the genocide" and other crimes ".

The press got the yellow sheet, the first mayor Voscherau took thankful, as well as the former Hamburg police ironator Pawelczyk and one Riange of Member of the Citizenship. The state body of the President in the opinion of the pupils who only friendly to their head welcomed with one

"Affenzahn". The guest speaker left his own under her expressions Dark blue Panzer-Mercedes-500 and explained to the "Abendblatt" reporter: "Die Time urged, I have to go to the hall. "There was a large part of the visitors at the Sit standing ovation with the yellow note in your hand. "The floral jewelry for The speaker of the Federal President Dr. Richard von Weizsäcker, it was said On the glossy paper invitation, the company Blumen-Reimers placed. “Everything was suddenly cleared and the next day was amazed The Hamburger Abendblatt: Richard von Weizsäcker did not give a speech Another laudation on the poet ... "

(Note: That leaflet distributor is identical to "Brutus Bärbeiss" from the Chapter 41 in "Die Rechtsbeermafia", which also presented on this homepage becomes. The relationships are amazing and dismay. It is obviously What state criminal threads in the background for the punishment of such dissidents be pulled. And we thought that on May 8, 1945, we finally ended. Far missing! At that time it was the concentration camp, today it is psychiatricization through incapacitation or supervision procedure and in a social democratically ruled country In favor of a CDU rotary !!!)

Something similar happened in Leipzig a month later. On October 10, 1990, "the Leipziger other newspaper "the title of genocide does not expire and under that Presidential photo this text: "Richard von Weizsäcker in the Nikolaikirche. Always still silence about the possible entanglements in arms trade ", and further in Text: "The President of the Federal Republic of Germany, Dr. Richard Freiherr von Weizsäcker, is involved in the poison gas production of the

Dioxin-containing combat fabrics "agent orange" for the Vietnam War and in the Arms exports of German companies in Iraq. So the public charges are The Jochen performed in the Leipzig Nikolaikirche last Sunday. He Couldn't end his speech ... "

Already a year earlier - without mentioning the name of Weizsäcker - the Hamburg "Zeit" on March 3, 1989 mutilized with the terrible pictures Vietnam children reports: "The poison works beyond generations ... more than 50000 affected people have claims for damages to the agent manufacturer Orange provided ... "

Where there are war crimes, war winners are not far. From Vietnam Coming back European doctors report what they are there in hospitals "Agent Orange" episode in glass containers saw: human fetuses with Cyclopal eyes, without arms, without legs, without a necks, with giant heads.

On July 6, 1990, the "Hamburger Abendblatt" published an expert opinion about The chemistry work "C.H. Boehringer in Hamburgbillbrook", which was fallen-up after many struggle, with the heading: Cancer, bronchitis, suicide "the factory of the Death ".

The controversial and well-known environmentalist Ernst-Otto Cohrs (Rotenburg/ Wümme) told the former company managing director on August 20 of the same year Richard von Weizsäcker in an unanswered letters to the numbers the 1520 employees examined: over 20 suicides and over 130 "miserably in cancer and leukemia", - until then.

At the Claudius event in September 1990 in Hamburg, the boss tried the Bonn presidential guardian to make it clear to the leaflet distributor: "Of course the sprayed poison is a terrible event. But could At that time President of Weizsäcker know what the Americans do with it would? "Uwe Krüger countered this:" Was his father know what in Auschwitz with the delivered Jews happened? "

Also the Koblenz chief prosecutor Hennerkes, to which the Stuttgart Public prosecutor Engstler had given down, downplayed under the file number 105 AR 16/90:

"There are no corresponding actual knowledge that is based on the Knowledge of the displayed would indicate a genocide plan. The Agreement between representatives of the companies Dow Chemical, Midland, and Boehringer, Ingelheim, concerned the delivery of a modern Manufacturing procedure of the agent disguised as a defoluted agent Agent Orange. It can be ruled out that the goals and the military Strategy of the United States of America at the warlike Disputes in Vietnam were the subject of the meeting. ... hence is no longer required to deal with the further questions of the The cause of the delivery of the manufacturing process for the one of them described consequences in the civilian population of South Vietnam and the participation of the Displayed ... "

Mannesmut before principal throns is not the rule among German judicists, And so the "life protection information" (Vlotho, April 1991) - once from CDU supporters launched - rightly the well -known "long bank" of the Investigator:

"Deichner uses extensive research that this poison is currently The Weizsäcker-Aegide at Boehringer in cooperation with the Uschemiewaffe company Dow Chemical during the Vietnam War Tank loading was shipped to the Mekong Delta. "Agent Orange" was Both with combat helicopters and from B 52 bombers over huge areas of the Vietnamese and Laotian tropical forest sprayed. ... tens of thousands of People were killed by this chemical club. ... even today, after far More than twenty years after the use of the dioxin poison "Agent Orange" Are difficult to children with severe children in Vietnam, Laos and Cambodia Born, spiritual and physical cripples. ... If something is not in the mass media, then it cannot happen be - "because it cannot be what shouldn't be".

This is how it sees the Stuttgart Mayor after the Appointment Richard von Weizsäckers as the "honorary citizen" of the Swabian Capital city:

"The fact that in the daily press neither about these procedures nor even about A possible conviction of the Federal President was to read something Doubts about the correctness of the claims ... "

The Federal Association of German Industry will also be prosecutor Investigative notices regarding Boehringer and Weizsäcker. The association thanks on 22 January 1991 from Cologne as follows: "We take its quotations, that they obviously have an insight into the public prosecutor's investigation. The The tenor of her letter shows that they have come across documents that the Federal President burden. This procedure is comparable to the so -called. Unveiling journalism, which has also set itself the goal, through quotations official documents or reproduction of company documents do not reputation the reputation only individual companies, but the entire German industry damage."

Let us consider the criticized "unveiling journalism" using the example "Stern", which Earlier occasion with his "Hitler diaries" of a million audience had not exactly served the yellow from the egg.

Here is the result of the Blatte of the sheet in February 1991 Prosecutor's findings, - in the form of a "Stern" letter to the editor of 21 February: Instead of "Boehringer" and "Richard von Weizsäcker" Death "Die Deutschen ..."

The "star" is that he "shortened", who falsely quoted that there was something]". "Towned". And the switched on and finally acclaimed by the "star" Lawyer explains: "substantial change".

Based on the "Stern" letter from April 9, 1991 printed at the end, the inclined reader decide for themselves whether we "at the dignity of the head of state" in this our country a "revelation journalism" or one Have "wrapping journalism".

Seat and voice at Bosch, Teldix, volcano

Loses about Boehringer activities of his Freiherring Federal President The authorized biographer Dr. Friedbert Pflüger in his almost 500 pages Strong praise hymn "Richard von Weizsäcker" (German publishing house, Stuttgart 1990) only a few sentences:

"He developed great respect for Boehringer. ... after death seriously Boehringer decided to leave the company. Farewell to Boehringer at the same time meant farewell to the activity in the economy, from Weizsäcker In any case, only regarded as a transition phase in his life. He was a manager and banker was successful, but this work had really satisfied him not."

About what the Stuttgart public prosecutor Engstler in August 1990 with "others We don't find a word at Pflüger. Felt matters with and investments to companies that operate arms trade, also with Iraq and who continue to do these business with death. If no other, then the former district court director will also help here Rudolf Deichner after, now in early fifty and - you are tried to say: naturally - already divorced from the civil service.

"A touch of Al Capone is in the air", "day by day his misdeeds become Well - known "; - these sentences of the Mannheimer make the round and Deichner demands the prosecutors: "The activities of Federal President Dr. Richard von Weizsäcker in its capacity as a weapon producer and weapons/ Female material suppliers are from all criminal law

Check points of view, especially the genocide. "

Let's start the investigations of these secondary business at Robert Bosch GmbH in Stuttgart. Rudolf Deichner leads on October 10, 1990 in the "DAZ" ("Die Leipziger other newspaper ") Under the heading" swords to airplanes "under the point "interdependencies":

"The Federal President has been at the Robert Bosch Foundation with 13.89 % ırt) since 1974 GmbH (Stuttgart) (No. 109 Commercial Register Court of Stuttgart).

The Robert Bosch-Foundation GmbH holds shares in Robert Bosch GmbH in the amount of DM 712,920,000.00 (Commercial Register Court 2452 - AG Stuttgart). The share capital of Robert Bosch GmbH is up to 800,000,000.00 DM. Weizsäcker is therefore DM 99.024,588.00 on the Robert Bosch GmbH involved. Bosch GmbH, together with the Allianz Insurance A G (Berlin-Munich), was 58.8% at the down-to-the-down division company (Munich) involved (Commerzbank "Who belongs to whom" 1985, No. 27, p. 19). Weizsäcker was a member of the Supervisory Board of Allianz-LebenSversicherung AG. The ABM-GmbH held 19.02% at MBBGmbH. According to the shareholders' contract of the MBB-GmbH is required for company-important decisions of a majority of 82 %. "

On October 9, 1990, the day before this publication Daily newspaper "in Berlin:

"Since 1974 Richard von Weizsäcker has been at the Robert Bosch Foundation ıH with 13.89% GmbH involved. Supposedly, his shareholder activity has been ı resting since his election May 23, 1984 to

Federal President. But the notarial protocol of a general meeting of the Robert Bosch-Foundation GmbH from November 19, 1987 in Stuttgart (document role no. 4317/1987 k) leads Mr. Richard von Weizsäcker as participating partner on; and according to this protocol "the shareholders unanimously decide" Various templates. It was only in April 1989 that the notary suddenly and plentiful late "in addition to the minutes of November 19, 1987" that the Shareholder Weizsäcker did not participate in the vote. Dem State head of state is legally prohibited. ... r Weizsäcker himself At the time, enriched the protocol on a third paper, namely The private transcription of a member of the supervisory board, which the president as a guest "listed".

The poison gas sprayed by Iraq against Kurds came from the 0 fight helicopters 60 Fight -wing helicopters that MBB had delivered.

This is documented and confirms once by the London "Institute for Strategic Studies "and on the other hand through the human rights organization" Society for Threatened peoples ". The" DAZ "counts among the" interdependencies "in the above Article further Teldix GmbH in Heidelberg on:

"In the 1986 annual report, Teldix GmbH (Heidelberg) is 99% Daughter of Robert Bosch GmbH. ... the Teldix product program can be found wherever the precision of the Mechanics combined with the intelligence of microelectronics. ... with the "Alphajet" it is the earth fight bomber of the Iraqi about which the "star" on August 23, 1990 reported. "Roland" is about the air defense system that the MBB is GmbH after the determination of the ARD remote magazine

The "Teldix Participation in Defense Programs "before in which the opinion can come up with the Iraqi "Defense", in self -defense. "Air" next to "Tornado", "Alpha-Jet", "Hawk" participation in a dozen other similar weapons systems. "Land": Except for the tanks "Roland" and "Pard" decisive participation With "Trading Plotter" and "Special Vehicles" for poison gas war. "Sea": Run there "Torpedos" and "Surface and Subsurface Vessels" off the stack.

With these "billion-dollar deals", the participation in the Bremer "Retrofer" then falls Vulkan AG with a "capital increase fraud" procedure because of The ridiculous 197 million marks are no longer particularly important. Just as little Like Richard von Weizsäcker's banker post as a "advisory board" at Hill/Samuel in Frankfurt am Main.

The good friends and the faithful neighbors are the current president of the converted four crew zones on the way out of his Lindau hiding place 1945 until he moved into the Bonn Palais in 1984 the chosen people of God in Israel and the superpayers beyond the great pond in God's own country. These two were the Freiherr von Weizsäcker in the fight for existence Calves that gave him his tremendous wealth and who with the blessing the court report of all over the world in press, radio, television showered.

So he stands there, marble -smooth, cold smiling winner, at the same time promoted Return with the Bible under the arm on the base of his pious fraud.

The belief in the chosenity of only one people by God is from the beginning racist. Philosemitism has always been the father of anti -Semitism - that is Long -awareness of all Jewish thinkers of the new school, which are normal and Equality under the same urge.

Home of the "chosen" to the land of fathers after two thousand years, this one Historically unique process as a result of Hitlersch "Jewish policy" is that President visitors in the "Holy Land" a self -image. The right to exist Israel is not doubted by almost none, nor here. However: it wouldn't be has long been time to insert a small word for one State of the Palestinians displaced from the end of World War II? A single one Word for the now known claim to the refusers of Unoresolution 242 "Land against Peace"?

Not only the Palestinians, we Germans also have to deal with. So it sounds on May 8, 1985 for the fortest anniversary of the surrender when the Germans Streets and squares had not yet fought their unit. The president quotes From the Bible and also a cardinal: "The bleak result of sin is always The separation. "

The pioneer of "special relationships with Israel" is still on his Numerous trips to the east did not come up with the separated Soviet occupied Königsberg area that after the upcoming freedom for Lithuania will no longer have any land connection to the Soviet Union.

During the Cold War, the Americans fought for "raisin bombers" for Berlin, the "island in the Red Sea" - that's right. But not your own interests because of, as President of Weizsäcker, it wants to make us believe, but about ours Blow eyes: "When the Berliners came into trouble after the war, theirs Freedom deprived, starved and blacked up politically, have Americans proved what it means to have their own freedom responsible for others to use. "

That was the first enlightenment in 1984 after the presidency started. The warriors To get oil on the Golf; That was in 1991, and that in the Federal Republic Legal women of the GIS heard tones in their living rooms: "I Will never forget what the United States did for us. I won't stop to feel my gratitude towards the American people and To express. " - Rose Davies found:" He makes such a nice, sincere Impression. " - and the home war of Lieutenant Colonel Richard Bridges she agreed with her at: "He comes the same."

Baron von Weizsäcker apologized that the Bundeswehr soldiers did not There are the turmoil, there would be "obstacles" (with which he now Mine rooms in the he Persian Golf broken Basic Law). That he Having "inhibitions" in German blood ot, for oil, he did not say that, he said neither.

They had sung soulful and lovely, the little child, as Mr. President and Wife in 3 Weiß on May 23, 1989 to celebrate the re -election on the balcony Locked up to the choir high up: "He's there, he's there, in his Gloria .."- Rita Süßmuth then also knew something about the story, albeit right and Wrong together:

"His father was convicted" (right), "but soon afterwards rehabilitated" (incorrect).

She explained her understanding of democracy on this festive day. "The President Richard von Weizsäcker takes on a special position, "she looked In the hall: "I see no contradiction" and on it: "Then this is so decided."

Confirmed in the office, chosen for the second time, this time until 1994 - with 881 of 1038 Voices. The pastor's daughter Antje Vollmer was one of the first of the Greens forward, to congratulate; The Hofknicks was missing.

The "mirror" had already known of a "replacement kaise" before: ɔwn:

".. Many Germans use the new man as a projection figure their healed cinema world. "

The president was chosen by the people - the votes of the millions of "picture" reader he would have sure. The Christian

Aligned Allensbach's demoscopic officer Elisabeth Noelle-Neumann tened:
Listened: "No shadow on this figure."

For Richard von Weizsäcker's journalistic pioneer, the Countess Dönhoff von The "time", the man stood "for ever life".

And he sees his activities at Schwiegeropa from Waldthausen as a banker and with father's friend Boehringer as managing director and his closing Rising to the President of the Republic simply just like this: "I have myself developed my way r myself. In the economy, nobody asks what you have for a name. "

In the notorious surrender of the Federal President of May 8 In 1985 the reporting, here reporting, found that he previously read from Ms. Vollmer had. When asked, the press spokesman Dr. Friedbert Pflüger vom Federal Presidential Office on October 1, 1985: "However, he has The speech with associations and parties, including Dr. Bird, Dr. Dregger, Mr. Mischnick and Mrs. Vollmer. "

In the confusion, this is confusing the German of the speaker, but the man was yes Speaker and not writer. For us it is remarkable how different Pages - also associations - this president is ground until they Finally sound built up.

"Brought into politics", that was the president of the Bundestag during the re - ıth election Rita Süßmuth announced to the Hohen house, "has the Federal President our Chancellor Helmut Kohl. He brought him to Rhineland-Palatinate, then after Berlin skilfully. "Saw among the listeners

We on television at the event Heinz Galinski, chairman of the Jewish Community, Executor Helmut Schmidt and Henri Nannen, who sit at the front with the Hitert diaries. They listened carefully to the following speech of the Re -elected: "Forty years - our state has grown up."

That too sounded good and the thoughts of dismantling and skill, which mostly Beginning twenty, thirty years later, the repressed Joy everyone.

It was right about the Süßmuth designs about the "decision to go to politicians will be ", the reference to Helmut Kohl. In 1964 a forest walk the then CDU parliamentary group leader in the Mainz Landtag and the one who has just been chosen as President of the Evangelical Church Day. The "Ecumenical World Bishop" called him the Gut Catholic Franz-Josef Strauß. After his hike with Helmut Kohl, Richard von Weizsäcker became a CDUM member of the Ludwigshafen district association with the number 1423/02435. In year In 1981 the Freiherr, who has switched to politics, died from the office of the Church president and becomes at the instigation of Kohl, on the jump to the Chancellery, Chairman of the Berlin CDU and - after the firm promise to the electoral people, not to divide out of the office prematurely - in June of the same year House of Representatives elected to the governing mayor.

After two and a half years there is an opportunity to break the promise, To become Federal President. At the beginning of 1984 we see the president "in Spe" in an otherwise empty Berlin church, only an illustrated photographer was there, "im Prayer for a divine instruction ". The instruction is known and applied to twice five years, hence until 1994. That as "crowning my life" Praised office of

He threw the Berliners in Berlin to the Berliners in front of his feet.

He took his reputation as a political good weather speaker to Bonn. However, he can Also silent - in Berlin from Weizsäcker, for example Devision of six foreigners in deportation, which exceptionally real had been politically persecuted, who prompted in the home country would have threatened.

It is a family heritage. At that time there the naming was introduced, often after the professional activities of Auwerter to the carpenter, when the rural people delivered the feudal men to the "Tenth" in the form of wheat after harvesting - one had to sag.

The Freiherr does not always become his reputation as a "political good weather maker" ("the SPIEGEL ") fair. When visiting his inaugural visit to the Saxony background February 1991 after the explanations in the Dresden Cathedral of the displeasure loud on the street. The survivors of the two bombing and days of 13. and 14th February 1945 in the 500,000 civilian refugees Art city without industry and military facilities wanted their hundreds of thousands of the dead of this war crime of the Western Allied commemoration. Then she met like a Gloss in the church's house the Weizsäckersche request, you want "Hitler and recognize Saddam as the enemies of humanity and resist them oppose. "

With a reference to Weizsäcker's enriches with weapon stores wrote to him the m social lawyer Dr. Günter Weigand: "I advise you well, as soon as possible from your appreciated

Office as Federal President who ethically forfeited them to step down before each other The scandal expands even more. You have been punished by life for a long time, too If you still have it in your hand, whether you 'hold out' or give up should. "

The president listened silently as Czech President Havel in Salzburg warned for the Mozart celebration. "Nobody can do before their biography flee. "

Up to the hour the Lord remains steadfast in the office, holds in old and new countries poignant speeches. Here: "We have to learn to share", there: "The emergency stands go All on ", and in the third place:" Now an outrageous community performance is necessary ". From the fact that the 100 million share package submitted somewhat at Bosch alone If you should have heard, nobody has heard yet.

Rather said that the example was taken that in Stuttgart the State father Späth, called "Cleverle" in the country, with donated excursions in The wide world that the Bundestag president Süßmuth is involved in Bonn Mercedes-adust and Berlin the new "Treuhand" boss Birgit Breuel At the World Pharma Group Smithkline Beecham with supervisory board post served.

A public prosecutor was ordered to Axel Caesar Springer when he ordered new lies Had: "Poor character is not a criminal act."

Johannes Gross, in whose lifetime as a court and wage writer, has Collected knowledge. He leads to the "true scandal of the republic" in "impulses" about the "rule of the lie" now:

"At the invitation of Björn Engholm, I had a few weeks ago Discussion on the topic of 'Barschel and the destruction of political culture' to participate. At first I found little applause with the thesis that the spread Lack of truthfulness is the main danger in our political life. The day after that I met one of the leading politicians in the Republic Simply spoke of the rule of the lie: rather than in the first For decades of the Federal Republic there is an all -encompassing coalition of the Mendacity. The remark aimed at the fact that all parties Unpleasant facts in front of the voters keep a secret, obscure or trivial.

... also no political group has the courage to honesty. If critical Facts, so to speak, thanks to the conspiracy of the power and opinion owners, the democratic process begins to lose his meaning. Whoever believes that the voters spare the truth To have to have the fundamental contempt for them to have the fundamental contempt Patronizing vocabulary from the "responsible citizen" so unexploited. "

The "first peaceful German revolution" - it is not allowed on the east bank of the yew expire. This also came from presidential mouth: "Freedom is a good thing through Use grows, waning away by non -use. "

“The bomb for the guide, Agent Orange to Vietnam, from Tiger to Leo ”: On the role of Carl-Friedrich & Richard V.Weizbehrens & Braunsäckers & Habes Ballad - “From the three hairdressers of the Troika”

Published on July 26, 2012 by Hartmut Barth-Engelbart

Arms export for the first Gulf War Iraq./.iran with over 5 million deaths, Atomic bombs-safe bunker under the villa of the peace bomb builder, agentorange to Vietnam, Seveso-dead in the Böhringer works, the roots of the Hanauer Siemensatombetriebe & Hitler's bomb workshop, “Jews & Communist cleaner” up to 30 kilometers from Moscow ..

What does all this have with the two column saints of the peace movement and the Antiucw movement to do with Carl-Friedrich and Richard von Weizsäcker? A Interview of the Germany radio with the science historian Prof. Fischer confirmed:

What is now happening with the 800 Leos, the Krauss-Maffei-Wegmann to Saudi Arabia delivers, knowing that Leos already in the suppression of the democratic Opposition in Bahrain are used by the Saudis, it all already has it Long in advance under the same as among other names. 25 years ago We tried to slow down the armaments of Weizsäcker's armaments tries the “Center for Political Beauty” to those of Braunbehrens, but but We only catch the pointed of the iceberg ...

It doesn't matter whether the war winners are called Braunsäcker or Weizbehrens ... who does not attack capitalism and his wars, it should be from its lubricated Marionettes silence? No, we just have to understand that the exchange of the Marionettes alone does not change significantly, whether Hollande or Sarkotzy, Merkel Or Gabriel, Kopper or Ackermann, Bush or Obama….

The ballad of the three hairdressers of the Troika

& Texts written in the NHZ 25 years ago -25 years ago Carlfriedrich & Richard von Weizsäcker is currently confirmed by a Germany radio interview with the science historian Prof. Ernst Peter Fischer on the role of Carlfriedrich v.Weizsäcker. The nuclear war bunker under the villa of Buddhism converted bombers and philosophers either has Professor Fischer Forgot or he knew nothing about it. I found out about this bunker in mine Talks with Robert Jungk, who was in and out of Weizsäcker's. He told Also from the regular family conferences in this bunker. The Prussian officer family apparently also calculated attacks on their leadership staff all fronts and knew and knows the drone systems for high-tech decapitation, which are now also produced in series at EADs. With his 99 million DM Participation in the high-tech armaments conglomerate of Robert Bosch Foundation, ITT, MB etc. and his seats on supervisory boards, foundation councils, management, etc. knew .. Richard von Weizsäcker also as President of the German Evangelical Church Day demonstrably from the armaments transactions and also has the corresponding contracts demonstrably submitted by hand. Now it was also in this conglomerate

Erwin Rommel's legendary tiger made. The Tiger City Anti-Riotrot fight helicopter was like the Leo ancestor of Erwin Rommel already used in Libya now and now also in Afghanistan ”about the to secure orderly withdrawal of the ehr ”! Bundeswehr ”!

The combination only becomes nice when both the Leo and the tiger of Esso is refueled: "Pack the tiger in the tank!" - could someone from that “Center for political beauty” research how many millions the family by Weizsäcker as a whole is involved in the armaments industry?

The dradio interview about Carl-Friedrich von Weizsäcker sees in the wording at the end This article - here are now the addresses of various texts on the role of that of Weizsäckers and the “Ballad of the three hairdressers of the Troika”
